

## THE IDEAL SPORT TRAINER

BUILT TO U. S. ARMY SPECIFICATIONS  
Approved by the Department of Commerce with  
Challenger MacClatchie or Western L-7

The Timm Sport Trainer Monoplane was designed and engineered to combine all the desirable qualities of an airplane—first quality—great strength—durability—good stability—fine visibility—great factor of safety—perfect control in all maneuvers and real performance. The workmanship as well as the material in the TIMM SPORT TRAINER conform with the U. S. Army Specifications. O. W. Timm, the designer and engineer, profiting from the experience of the U. S. Army has built this commercial training plane to withstand the strain and abuse of advanced as well as primary training.

*There are a few choice territories still open.  
We invited interested and responsible parties  
to write us about our attractive dealers and  
distributors franchise.*

**TIMM
